

## CHAPTER 11

# Preparing to Take Over the United States

*For when they shall say, Peace and safety; then sudden destruction cometh upon them, as travail upon a woman with child; and they shall not escape. (1 Thessalonians 5:3 KJV)*

This chapter is a key chapter in tying together the preceding chapters on prophecy and the role of the United States in it to current events. It is dated only up to the year 2000, but these events were very significant. So many Americans are blind to what has really been happening behind the scenes and where all this is headed. **Many, fooled by the Secret Rapture doctrine, are going to be caught totally unprepared for the tribulation and persecution of Christians that is going to happen in this country. They will not escape it through a secret rapture.** The coverage provided is of necessity brief, so for more details consult the references quoted. We do not know when or how this will be achieved. The following information is from sources we believe to be reliable and honest in reporting the facts that you may not have seen in the general media. Our point is to show you there are several possible scenarios that could easily bring the United States down. **God has repeatedly given warning and is now ready to remove his divine protection from the United States. When he does so, it will happen quickly.** Can we prevent it? Yes, but only by individual and national repentance, and turning back to God's ways, on a scale never achieved before. Pray that the United States will awaken in time.

### ***The Advance of the New World Order*** <sup>1</sup>

For centuries, the notion of world government has been nurtured by various orders and political leaders. With nation linked to nation through the economics of trade and the financial markets, and certain regions of the world almost perpetually on the brink of war, some believe there's a real need for world government.

Many believe that we are quite possibly one major world crisis away from world government becoming a reality. We are talking about either an economic crisis or a military crisis, or possibly a combination of both.

---

<sup>1</sup> Summarized from *The Christian Broadcasting Network*, April 21, 1998, <http://www.cbn.org>

War has often been associated with moves toward global government. The 1991 Gulf War brought a lot of popularity to the term "New World Order," a catch phrase often used by President George Bush. A world crisis aside, globalists are reeling in nations in other ways ... one treaty at a time.

### ***Circumventing the U.S. Constitution***

To some degree, the United States Constitution is standing in the way of a one-world government. However, advocates of a global government are trying to circumvent the U.S. Constitution through a loophole that they have found. That loophole has to do with international treaties. According to the U.S. Constitution, it could be interpreted that international treaties take precedence over domestic law. And so if you can sign enough international treaties covering every area of life, government, trade, economics, and the environment, ultimately, you will have the infrastructure for a world government in place. This scenario sounds incredibly like an article written in a 1974 edition of *Foreign Affairs*, an official publication of the Council on Foreign Relations. Former Deputy Assistant U.S. Secretary of State Richard Gardner wrote: "In short, the 'House of World Order' will have to be built from the bottom up, rather than from the top down. An end run around national sovereignty, eroding it piece by piece, will accomplish much more than the old-fashioned assault."

Observers point to a number of organizations they say are leading the way toward global government. They include the following: The United Nations, The Council on Foreign Relations, The Trilateral Commission, The Bilderberger Group, The Gorbachev Foundation, The Club of Rome, and The World Council and Parliament Association.

Larry Klayman, who heads government watchdog group Judicial Watch, expresses concern about two groups in particular: The Council on Foreign Relations and the Trilateral Commission. "They are shadow governments, and they are governments of the Georgetown elite in Washington," says Klayman. "A people who get together, who like to drink, eat, and carry on together, who make decisions on behalf of the American people, without us knowing about them."

Klayman equates this to Hillary Clinton's medical health care task force. "There you had private lobbyists, special interests, meeting behind closed doors, trying to change the American health care system, which is the best in the world ... without the American people knowing about it," he says. "Thank goodness there was a lawsuit. Thank goodness there was a court that put its foot down, and we found out what was going on, and we were able to quash the plan to socialize medicine in the United States. And that's the risk of the Trilateral Commission and the Council on Foreign Relations: it's staffed by elitist bureaucrats, what we would call the New Nobility of international relations. And the American people are left behind, not knowing whether deals are being cut behind their backs."

### ***Gorbachev Foundation USA***

A relatively new group on the global scene is the Gorbachev Foundation, founded by former Soviet leader Mikhail Gorbachev. Author David Allen Lewis, in his book *Signs of His Coming*, details a 1995 conference sponsored by the foundation. "The State of the World Forum: Toward a New Civilization" was held at the Fairmont Hotel and the Masonic Auditorium in San Francisco. A conference document obtained by Lewis speaks of a new world civilization. "We are experiencing the birth of the first global civilization," read the document, its statement of purpose calling the movement "an historic, timely global initiative." In the *San Francisco Weekly*, Jim Garrison, Jr., the head of the Gorbachev Foundation USA, said the planet needs a "Council of Elders" drawn from the highest echelons of politics, science, the arts, and commerce. Garrison predicts that "over the next 20 to 30 years, we are going to end up with world government, it's inevitable."

### ***Constitution for the Federation of Earth***

But there's one group that is campaigning for world government now. The World Constitution and Parliament Association has pulled together a draft of a constitution for world government. Officially, it is known as "A Constitution for the Federation of Earth." The Colorado-based WCPA has a wide range of supporters, including former U.S. Attorney General Ramsey Clark, a vice president of the group.

Best estimates suggest that at least 500 organizations are networking together for a unified planet. Some work in the economic and political realms, and others in the spiritual realm, by way of the New Age movement. There is often a mixing of the two. The leaders of many of these organizations belong to one or more of the secret societies, particularly the institution of Freemasonry.

### ***Freemasonry***

The ultimate god of Freemasonry is Lucifer -- Satan himself -- not only because Satan seeks worship, but also a key to Satan's plan is to keep you from knowing Christ. "If a Freemason wanted to determine whether or not Freemasonry promoted the teachings of Lucifer, it's a very simple task to determine that," he says. "He might look at a book called *The Builders* by Joseph Fort Newton. It's the most popular Masonic book that's ever been written. Now, if you were to turn to page 57 of *The Builders*, you'd find a glowing tribute to a man named Arthur Edward Waite, and that tribute continues from page 57 through page 59. And then they start talking about the writings of Arthur Edward Waite as being "noble in form, unique in wealth, revealing beauty," etc. And the first book of Waite's they lift up is *The Mysteries of Magic*, which is a digest of the writing of Eliphas Levi. Now if you turn in *The Mysteries of Magic* to page 428, you'll find statements that Lucifer is the Holy Spirit." Eliphas Levi is also the creator of the black magic *Baphomet* character often used in Satanic rituals. The *Baphomet* is pictured here on the cover of a book about Aleister Crowley, regarded by many as the father of modern Satanism. The book teaches how to conjure up demons. Crowley, by the way, was a 33rd-degree Mason. Added to this are writings from Albert Pike, in a book endorsed by the Scottish Rite. On page 321, it states that "Lucifer [is] the Light-

Bearer!"<sup>2</sup> No true Christian should ever be a member of the Freemasons. If you are, find out this truth, and get out while you can.

### **New Age Movement**

Indeed, Rev. David Carrico, who conducts seminars on secret groups, cites two Masonic publications which reveal strong New Age values. For decades, the official publication of the "Scottish Rite" of Freemasonry was called *The New Age*. In the September 1950 edition, there's an article titled "God's Plan for America." Its author writes that "God's plan is dedicated to the unification of all races, religions, and creeds. This plan, dedicated to the new order of things, is to make all things new: a new nation, a new race, a new civilization, and a new religion." Another example of the Masonic connection to the New Age is the book *New Age Youth in Masonry*. On page 66 of this book, they make this statement: "But if those who join the order in the days and years ahead do not grow in their understanding of the New Age Mission of Masonry, they could become the enemies of the New Order of the Ages." And what's even more disturbing is what they say about Jesus Christ: "First, it should be made clear as to the meaning of the word *Christ*. I suspect that you think that it means a person known as Jesus Christ, and that there was and is only one such person in the world. No, the word Christ refers, not to a single person, but is a quality or degree of perfection in all the human and divine virtues and powers of mind, spirit, and soul."

Ever since the founding of the New Age movement, a "new" Christ has been foretold. The grandmother of the New Age movement was Helen Petrovna Blavatsky. In 1775, she launched an organization with Judge Olcott called the Theosophical Society, which has its headquarters today in Wheaton, Illinois. And she said in her books, of which there are volumes and volumes upon volumes, *The Secrets of Isis*, *The Secret Doctrines*, and so on -- she says there's going to be a second coming of Christ, but it won't be Jesus."

Clearly, many have a strong desire for world unification, spiritually, economically, and politically. The big question is "How will they accomplish it and how soon could they succeed?" There will never be world peace without some kind of a global function. But we know from the Bible that the world government that's going to prevail is going to be the reign of Jesus Christ and His Kingdom and not the Antichrist.

### **A New World Order**

America has changed. Once the home of the free and the brave, we are now a country of decadence, occultism and arrogant politicians. We are a people on the edge of collapse, financially, politically, and morally. Did this happen by accident or was it purposely planned and designed? Is it possible that this collapse is actually being perpetrated by groups who truly understand where we are headed? Former President

---

<sup>2</sup>"Behind the Mask of Freemasonry", *The Christian Broadcasting Network*. April 22, 1998, <http://www.cbn.org>

George Bush has told us plainly that we are headed to a *New World Order*.

We are to warn this nation of its impending collapse and enslavement, possibly under the United Nations New World Order. Cliff Kincaid started investigating the United Nations four years ago. This resulted in his blockbuster book called the *Global Bondage: The U.N. Plan to Rule the World*. In this book he cites official U.N. documents calling for world government, global taxes and an International Criminal court to prosecute American citizens. They are working secretly behind the scenes to achieve their goal.

### **Secret Societies**

“Beneath the broad tide of human history there flow the stealthy undercurrents of the secret societies, which frequently determine in the depths the changes that take place upon the surface.”<sup>3</sup> This “Invisible Power is working to control and enslave mankind. It financed Communism, Fascism, Marxism, Zionism, and Socialism. All of these are directed to making the United States a member of a World Government...”<sup>4</sup> What are their objectives? “They do not want constitutional government...They want to change the tenure of the land, to drive out the present owners of the soil and to put an end to ecclesiastical (religious) establishments.”<sup>5</sup> Who is this Invisible Power? It is none other than the Illuminati.

You need to understand that Adam Weishaupt, the modern founder of the Illuminati, was a worshipper of Satan, as well as later leaders that laid the final program for world take-over in the 20<sup>th</sup> Century. Giuseppe Mazzini of Italy became the leader upon the death of Weishaupt. He worked in unison with Albert Pike of Little Rock, Arkansas. Pike became the head of *The Ancient and Accepted Scottish Rite of Freemasonry*. The Illuminati merged with Freemasonry in 1782 and also created a super rite known as the *Palladian Rite*. Historians who investigated this new rite called it a *cult of Satan worship in the inner shrines of Freemasonry*. Masons of the lower degrees are never allowed to know the true nature and workings of Freemasonry.

### ***Illuminati's Plan for World War III***

The Illuminati laid down its program for total infiltration into governments back in 1776-86. In a remarkable letter dated August 15, 1871, which until recently was on display in the British Museum Library in London, Albert Pike gave Giuseppe Mazzini details of the Luciferian plan for world conquest. In graphic detail **he outlined plans for three world wars**. He stated that **in the third of these wars**:

We shall unleash the Nihilists and Atheists, and we shall provoke a formidable

<sup>5</sup> Woodrow Wilson, former President of the United States.

social cataclysm which in all its horror will show clearly to the nations the effect of absolute atheism, origin of savagery and the most bloody turmoil. Then everywhere, the citizens, obligated to defend themselves against the world minority of revolutionaries, will exterminate those destroyers of civilization, and the multitude, disillusioned with Christianity, whose deistic spirits will from that moment be without compass (direction), anxious for an ideal, but without knowing where to render its adoration, will receive the pure light through the universal manifestation of the **pure doctrine of Lucifer**, brought finally out in the public view, a manifestation which will result from the **destruction of Christianity** and atheism, both conquered and exterminated at the same time.<sup>6</sup>

The Illuminati merged with Freemasonry at the highest level in 1782. This gave them access to every nation to begin their work of destruction of all existing governments and religions. Their first goal was to dismantle all kings and turn their governments into democracies, which could easily be turned into dictatorships at the right time. The Western constitutional forms of government would be infiltrated. They would infiltrate the political system. **They would also infiltrate religious seminaries to redefine principles of the Bible and cause doubt in the minds of students who would become the future ministers.** (Is that why Americans are so misled and deceived in their Biblical doctrines and beliefs?) They were to infiltrate colleges where future teachers are trained. This way their goals could be taught by unsuspecting change agents called teachers – not knowing they were being used. They would begin to create for themselves monopolies in the business world. They would control government, business, religion, and education. This is Socialism/Communism/Fascism to perfection. And they have accomplished all the above. We need to think about our Government, Religious and Secular Universities, Microsoft, Amazon, Google, Facebook, Public Schools, World Council of Churches, Catholic Church, and the top 100 companies in the DOW, and how these have changed and how they influence us and our thoughts and beliefs, and where all this is leading up to a New World Order and a future World Government.

### ***Communism Infiltrates Our Government***

The Senate Subcommittee on Un-American Activities in 1931 proved that communism was well entrenched in our government at that early date. It also proved that the communist had gained control of the Communications Union that dispersed news even to our military by 1931. How far do you think they have come in the last 67 years?

A report entitled *Interlocking Subversion in Government Departments* was published by the Internal Security Subcommittee of the United States Senate 83<sup>rd</sup> Congress, dated July 30, 1953 describes the extensive Communist penetration in Government. Named were numerous individuals involved with the Treasury Department, the United Nations, the OSS [CIA], and the Securities and Exchange Commission. One of these was a known communist, Harry Dexter White, who was Assistant to the Secretary of the Treasury and had **full responsibility for all matters**, which the Treasury Department has to deal with **on foreign relations**. White was also the chief architect of

---

<sup>6</sup> Des Griffin, *Fourth Reich of the Rich*

the International Monetary Fund and served on over twenty committees of international bodies such as the Export-Import Bank and the Executive Committee on Economic Foreign Policy. He was finally forced to resign in 1946 but was never imprisoned for sedition or treason. Rather he was commended by President Truman and was made Executive Director of the International Monetary Fund. The subcommittee also identified Alger Hiss as a Communist infiltrator of our government. Hiss was intimate with the leaders of the Institute of Pacific Relations, which the subcommittee found to be infiltrated by Communists. Alger Hiss and Harry Dexter White eventually gained control of the innermost command posts affecting American foreign policy. Hiss had access to every top-secret document. Alger Hiss was Director of the Office, which initiated American policy on United Nations questions. Finally exposed, Hiss resigned. Hiss was Secretary General of the UN's founding conference, a member of the secret Council on Foreign Relations, and a secret Soviet agent.

The most comprehensive investigation into internal infiltration was by the Jenner Committee made public on July 30, 1953. The conclusions of that committee were as follows: 1. The Soviets (which was formed by the Illuminati) international organization has carried on **a successful and important penetration of the United States Government.** 2. This penetration has extended from the lower ranks **to top-level policy and operation positions in our government.** 3. They have **operated with a distinct design** fashioned by their Soviet superiors. 4. Members of this conspiracy **helped to get each other into government,** helped each other to rise in government, and **protected each other from exposure.** 5. The Communist who infiltrated our government **worked behind the scenes** – guiding research and preparing government policies, writing speeches for Cabinet officers, influencing Congressional investigations, **drafting of laws,** and manipulation of administrative reorganization. 6. Policies and programs laid down by members of this Soviet (Illuminati) **conspiracy** are still in effect within our government, and **constitute a continuing hazard to our national security.**

Since 1925 the **Department of Justice has had no power, no authority, or no funds from the Congress to investigate communist propaganda or activities.** At the present time the Communist Party of the United States is thoroughly and highly organized, nationally and locally, and is extremely active. The Congressional committees which once investigated Communist activity were abolished in the mid 1970's. Since the middle 70's, the FBI has been forbidden to investigate communists or keep them under surveillance unless there is evidence that a crime has been committed. As a result, on-going FBI investigations of communist activity in America dropped from 24,414 in 1973 to 51 in 1983 (Evans, *How U.S. Security Was Destroyed*, Human Events, Aug. 5, 1985, p. 7). The Jenner Report is over forty years old. How completely do you think the New World Order/ Socialist/Communist/Illuminati have infiltrated Washington, D.C. and taken control today? Any discussion of Communism today may seem ludicrous. The media has determined that "Communism is dead." Yet, over 2 billion people remain under the yoke of Communism. Is it possible that the yoke of Communism has tightened on us all, much more than we have realized?

## ***Destruction from Within***

In 1919, allied forces in Germany captured a very significant document. It was called *Communist Rules for Revolution*. These were the processes by which the Communist were to achieve their objectives. And you read these rules consider what is happening in America today.

### **Communist Rules For Revolution**

- A. Corrupt the young; get them away from religion. Get them interested in sex. Make them superficial; destroy their ruggedness. [Control education. Ban prayer in schools. Sex education in schools. Gay and lesbians.]
- B. Get control of all means of publicity, thereby:
  - 1. Get people's minds off their government by focusing their attention on athletics, sexy books and plays and other trivialities. [All sports, football, Superbowl, Olympics, O.J. Simpson trial, Playboy channel]
  - 2. Divide the people into hostile groups by constantly harping on controversial matters of no importance. [White vs. Black, White vs. Hispanic, Homosexuals against Christians.]
  - 3. Destroy the people's faith in their natural leaders by holding them up to contempt and ridicule. [President Clinton, President Trump, and others, Jimmy Swaggart, Jim Baker, Clarence Thomas and John Edwards Supreme Court Justices.]
  - 4. Always preach true democracy, but seize power as fast and as ruthless as possible. [remember the Branch Davidian's at the Waco Massacre, shooting down the TWA flight 800, the Oklahoma City bombing, the Covid-19 pandemic of 2020 where they destroyed the world's economy and controlled people by the fear of the invisible and unknown.]
  - 5. By encouraging Government extravagance, destroy its credits, produce fear of inflation with rising prices and general discontent. [Alan Greenspan and the private Federal Reserve Bank]
  - 6. Promote unnecessary strikes in vital industry [ UPS strike, GM strike], encourage civil disorders and foster a lenient and soft attitude on the part of the government toward such disorders. [L.A. Riots, George Floyd Riots]
  - 7. By specious argument cause the breakdown of old moral virtues, honesty, and sobriety. [Promote sexual freedom, abortion, and homosexuality. Beer commercials.]
- C. Cause the restriction of all firearms on some pretext with a view of confiscating them and leaving the population helpless. [The 1968 gun act was taken virtually word for word from Nazi Germany's in the 1930's; additional restrictions continue to be added.]

An even more detailed plan to subvert America was passed from Joseph Stalin to various Communist District organizers. **It was more explicit in how to help the United States self-destruct.** It included these additional points:

1. By philosophy, mysticism, the development of liberal cults, and the furtherance of atheism, discredit all Christian creeds. [New Age mysticism and occult philosophy is promoted through public schools, movies, TV, and cartoons.]
2. Corrupt morality by advocating promiscuity, advocacy of legalized abortion, destruction of the family.
3. Promote blasphemous filthy, pornographic art, literature, and music.
4. Promotion and exaggeration of all social and economic conditions and political corruption to create unrest, suspicion, and revolt by the workers; intensify class wars. [Black vs. White]
5. Create mistrust of banks by circulating rumors of instability. [Saving and Loan Failure]
6. Destroy pride of workmanship and standardize cheap and shoddy products [China imports.]
7. Exchange foreign currency for U.S. gold at a slight discount and gradually withdraw gold from circulation.
8. Set up the ideal of thinking internationally so as to undermine national patriotism.
9. Weaken all government departments by corruption. Attack all political parties and create suspicion and distrust.
10. Undermine all preparations for defense. **Inoculate in the minds of all nations the theory of international friendship, peace, and disarmament.**

Can you see how these points apply to the United States? It looks like they have very effectively accomplished what they wanted to do to the United States. The last 3 points were just completed. Now there is no more Soviet Union and communism is dead. We are at peace with Russia. If you believe that, I have a bridge in Arizona I want to sell you.

**On the contrary, Russia is alive and well, more armed than ever, and waiting for the right time to strike the last deadly blow to the United States.** Now we are disarming our nation according to their plan. The United States citizens have been lulled to sleep. They have been lied to. They have been deceived. **The extent and spread of the Communist within our Government and our culture has been so extensive and so effective that they may be able to take over this country from within without firing a single shot.**

### ***Signs of Communism in our Schools***

In the *Investigation of Communist Propaganda* it reads “The most tragic and appalling situation in Soviet Russia is the fact that millions of young children attending the public schools are taught each day **hatred of the concept of God** and of all religious faith and beliefs. This instruction is mandatory on the part of the teachers; and if they fail to carry out their orders, they lose their jobs. These young children are **also taught to hold their parents in contempt and disobey them if they maintain any belief or faith in religion.** Documents and books presented to the committee indicate that the most

terrible kinds of vice are encouraged among the young school children in order to **break down their family influence**, which is the foundation of all religion.”<sup>7</sup>

Consider what goes on in the public schools in the United States today. Are things much different from this description of the Soviet Communist system? How far gone are we when the same repression of religion has been in the United States since the outlawing of prayer in the public schools in 1962?

### **No Justice**

Even the government of the United States is under control of Satan’s agents – high level Masons who serve as a cover for the Illuminati. **“Sixty seven percent of all Senators and House of Representatives members are currently Masons who take “blood oaths” to follow the instructions of their superiors.** Today, under Satan’s rule, there is no honesty in the courts because Masons sit as judges. People in America, especially in what is call the patriotic movement, keep defending themselves by using the Constitution of the United States and end up in jail! Why? Masons infiltrate in secret into judgeships and Supreme Court Justices and interpret the Constitution to meet the purposes of the Illuminati to change our Republican form of government into a democracy. The Republican form of government provides the same law for everyone. Democracies always turn into dictatorships within 50 years of being established. Christians will receive no justice in these courts of Satanism! This is why it is futile to waste your precious time on trying to “beat” the system. **Our whole purpose is to look forward to the coming of that one Kingdom of God that will ultimately bring justice, happiness, joy, peace, and plenty to all the world.”**<sup>8</sup>

### **Federal Reserve Act and Income Tax**

**The first two planks of the Communist Manifesto were passed into law in 1912-13 when Woodrow Wilson became President. They were passage of The Federal Reserve Act and the graduated income tax.** The Federal Reserve could now create depression or recession any time they wanted to for their own purposes. Former President Jimmy Carter found that to be true, with his 23% inflation that was created by the Fed. The purpose was to elect Ronald Reagan. Reagan stated openly in his first state of the Union message that he could do nothing about his inherited 23% inflation because the Federal Reserve was an autonomous organization not answerable to anyone.<sup>9</sup>

### **Stock Market Crash of 1929**

The Illuminati had stated that one of their goals was to create giant monopolies. So when the stock market crashed in 1929 under their guidance, all over the world at the same time, they would come through it and control everything. It was designed to sweep

America into Socialism by President Roosevelt declaring a national emergency and pressuring Congress for unlimited power. He received it in March 1933 and brought in a barrel full of “Socialized” programs that radically altered our Republican form of government forever. He then proceeded to invite members of the Council on Foreign Relations into positions of government. Will another financial crash of the Stock Market or the banking system usher in the New World Order?

### ***Council of Foreign Relations***

Members of the Council on Foreign Relations [the Illuminati cover in America] have now completely taken over the government. The Council on Foreign Relations was founded by Marxist/Communist/Illuminist Col. Edward Mandell House, who just happened to be the personal adviser to Woodrow Wilson, when he got passed into law the Federal Reserve Act and the graduated income tax.<sup>10</sup> Can we correct the problem, by using the system we have, through the ballot box? **It doesn't matter which one of the two political parties you belong to, the powers that be make sure their man gets elected no matter which candidate wins the election. They simply control and run both candidates.** The Illuminati, under the cover of the Council on Foreign Relations, Trilateral Commission, or the Order of Skull and Bones, etc., has provided both candidates from the Democrats and Republicans. No matter which party you vote for, you vote Illuminati. Many believed President Bush was a simple conservative Republican, but President George Bush was a member of the Order of Skull and Bones. And his son President George W. Bush was also a member. Most of our Senators and House of Representative members are also under their control. Did you know that most Senators and Representatives never actually read the actual content of the law being passed? That law may be hundreds or thousands of pages long and yet all they read is a short prepared summary of it. And who do you think drafted the law and then wrote the summary for them? You got it! Agents of the Illuminati or Freemasonry are behind the scenes writing laws, so the congressmen really have no idea of what they just voted into law. There are thousands of little unknown laws on the books that they will use later to convict Christians with crimes against this new government.

### ***The Clinton Team – Satanic Plot for World Slavery?***

“Clinton has approximately 400 people from the subversive Council on Foreign Relation in Washington. Remember, these people are all part of a “Brotherhood” sworn to work for the good of the Order, subject their views to their Superiors in the Order. If anyone turns against the Order, they have sworn oaths that their “Brothers” of the Order can assassinate them. Why do we think there are so many drowning’s, airplane crashes, suicides, etc., of government officials? They have taken all they could and were ready to talk, so they had to be eliminated. This is truly a Satanic plot for World Slavery.”<sup>11</sup>

The Institute for Policy Studies (IPS) has infiltrated itself thoroughly into the

American Government. Now that is a nice sounding official name for a radical organization funded by the Rubin Foundation, a Communist financier. Samuel Rubin was a registered member of the Communist Party.<sup>12</sup> The history of the Institute of Policy Studies (IPS) goes like this:

In 1960, James Jeremiah Wadsworth, a member of the Order of Skull and Bones, and Arthur Waskow set up the Peace Research Institute.<sup>13</sup> In 1963 this organization was incorporated by Marcus Raskin, a staff member of the National Security Council and an aide to Skull & Bones' Mc George Bundy. Grants came from the Samuel Rubin Foundation and the Stern Family Fund. Billionaire Armand Hammer assisted Rubin in making the fortunes which helped launch IPS.<sup>14</sup> Philip Stern, an IPS trustee, was the president of the Stern Fund. **The executive director of the Stern Fund, David R. Hunter, was previously an official of the National Council and the World council of Churches.**<sup>15</sup> Now don't you find that interesting? **The National and World Council of Churches are affiliated with Communists, yet your church is probably a member and contributes money to them.** It gets better!

**Here lies the Order of Skull and Bones' tie-in with the Clintons. Hillary Clinton funded the IPS and other Communist organizations** when she was Director and Chair of the board of Directors of the New World Foundation in 1987-1988.<sup>16</sup> Hillary funded and praised the Order's pro-Marxist IPS, which the FBI had investigated for murders, espionage, terror bombings and kidnapping. Bill Clinton has now appointed many known IPS members to high government posts and one of his closet friends and advisors is IPS-Marxist **Derek Shearer**, a top economic advisor. Another top IPS-Marxist appointee is **Anthony Lake**, once Clinton's National Security Advisor. Another was **Leon Panetta** who was first appointed to direct the Office of Management and Budget and was later made the White House Chief of Staff. Panetta has been a fund-raiser for IPS along with **Les Aspin**.<sup>17</sup> "Panetta has a direct link with the international banking firm of Lazard Freres which itself is linked to the International Monetary Fund. Since the International Monetary Fund's history is tainted with Communists like Harry Dexter White, **the devastation of the American economy must be a planned certainty.**"<sup>18</sup>

Vice-President **Al Gore** also has links to Marxist-Communism through Armand Hammer. In his well-documented book, *SECRET*, David Mark Price states, "Over the past twenty years, Al Gore, Jr. has collected nearly a half a million bucks in royalties on a

zinc mine which didn't exist for 12 of those years. The Gore benefactor was none other than Lenin's personal bag man to the U.S. Communist Party, Dr. Armand Hammer.”<sup>16</sup>

“Members or patrons of Clinton’s Advisor Derek Shearer’s IPS have been implicated in a number of politically motivated criminal activities, including conspiracy to kidnap the U.S. Secretary of State, treason, bombings, espionage and murder.”<sup>12</sup> “The FBI reports that IPS personnel are linked to the pro-Communist and anti-U.S. SDS group, the Weathermen terrorist group which was involved in strategic sabotage and the Progressive Labor Party which was founded ...by individuals expelled from the Communist Party USA, for following the Chinese Communist line.”<sup>10</sup> You might recall that on the night of the Los Angeles riots over the Rodney King verdict in 1992, a Los Angeles radio station reported that the “Progressive Labor Party” was passing out leaflets to incite rioting. There is so much more to tell, and so little space in this book. The point is that the administration has strong Communist ties. There is definitely a conspiracy to organize a world government. Their next step would be to disarm the United States militarily.

### ***Disarming the United States***

On March 23, 1983, President Ronald Reagan said: “Wouldn’t it be better to save lives than to avenge them?” He was discussing the need for the “Star Wars Program” to prevent Soviet nuclear warhead missiles from striking American cities. Those high in government who are working for disarmament of the United States blocked the production of this system, so that **we do not have the capability to stop one single missile launched against America.**

This problem was demonstrated during China’s early 1996 confrontation with Taiwan. Chinese officials let it be known that they did not expect the U.S. to interfere because the U.S. was not prepared to trade Los Angeles for Taipei. The \$30 billion invested in ballistic missile defense between 1983 and 1993 produced the technology to end America’s vulnerability to missile attack by the end of the decade. But these programs were scuttled in 1993 when leftist President Bill Clinton cut over 60 percent from the Strategic Defense Initiative funding. Then President Clinton negotiated with Russia for more restrictions in the 1972 ABM Treaty, making it now impossible to build the most effective least expensive defenses.

### ***The China Connection.***

President Clinton's presidency has been burdened with scandals. Forget the sex scandals, forget the campaign finance rules, forget about sleeping in the Lincoln bedroom, forget about the coffees with the President, and Al Gore begging for money out of the White House, much more important is President Clinton's link to China's communist dictators. This thing with China could be economic espionage or it could be a national security breach. The following material is a summary of information available from Marlin Maddoux and his *Point of View Radio Talk Show*, P.O. Box 30, Dallas, Tx

75221, called "The China Connection" and also available on the internet at <http://www.usaradio.com/pov>.

The road to China goes through Little Rock, Arkansas. If you don't understand the money connection that began years ago between the Asian money sources and Bill Clinton, then you're not going to get a grasp of the monumental scandal that right now hangs over the White House like a dark, gray shroud.

The March 24, 1997 issue of National Review has an article written by Rich Lowry called "China Syndrome." Here's what he said: ""Stoked by bombshell reports by Bob Woodward in the *Washington Post* about an FBI investigation into the role of the Chinese embassy in Democratic fund-raising, the latest Clinton scandals have been elevated into the realm of the fantastic. But they have their roots in the classic Clinton formula: Arkansas cronies, a **willingness to do anything to win, an inability to distinguish between official duties and politicking**. Like all Clinton scandals, the latest begins in Little Rock. That's where Charlie Trie, the freelance businessman who would later bring a Chinese arms merchant to the White House, owned a Chinese restaurant frequented by then-Gov. Clinton. John Huang, the Lippo executive turned Commerce official turned DNC fund-raiser, lived in Little Rock. So did James Riady, son of Lippo co-founder Mochtar Riady. It was in the Arkansas capital that the initial Lippo-Clinton links were forged, as the Riadys funded Clinton's gubernatorial campaigns and at a crucial moment in the 1992 primary campaign floated Clinton a \$3.5 million loan.

### **Payback Time**

Once Clinton was in the White House, apparently, it was payback time. In a letter to the White House Huang asked about jobs at the National Security Council, State Department, and Commerce Department for himself and another Lippo official. Huang became the deputy assistant secretary for international economic policy at Commerce; his Lippo colleague won appointment to a federal advisory panel. Commerce was such an appropriate roosting place for Huang ...it afforded him an opportunity to influence trade policy. For reasons no one in the Administration has yet adequately explained, Huang had a top-secret security clearance both before he joined Commerce and after he left. While at the department, he was scheduled to receive 37 intelligence briefings, several having to do with China (and he would often call the Lippo offices on the same days he received classified documents)." But just as importantly, Commerce was the place in the Administration where international policy, politics, and cash met...Lippo was used to operating in Asia, in which payments to government officials are typically the price of doing business."

### ***Is our Government for Sale?***

Anybody want to buy a good used government? Evidently the U. S. Government is for sale if you have the cash. *Los Angeles Times*, March 16, 1997 says: "Possibly since the early '90s, the Chinese government has sought to acquire intelligence about U. S. policy toward Beijing by illegally contributing money to the campaigns of certain

American politicians." The Chinese saw something back in Arkansas in Bill Clinton that they could exploit. And today what did they get, the Most Favored Nation status of China, and with that they can take the 45 billion dollars that they're getting from the U.S. taxpayers and they can use a lot of it to influence our politics.

You have to keep in mind who are the people doing this. Remember the name, "The Princelings." There is an article out of the Boston Globe (3-2-97) that says: "There is an understandable American confusion about the nature of the regime that rules China. The fabulously wealthy princes of the party preside over a crooked and primitive capitalist market in the name of Marx and Mao. In reality, they are neither real communists nor legitimate capitalists. They are bandits, and they must not be permitted to import their back-door methods into the United States."

### ***China's Access to Top Secret Reports***

The President entertained the chief weapons dealer for the Chinese army in the White House. The White House gave John Huang, the U.S. point man for Indonesia's Lippo Group, top secret clearance five months before he joined the Commerce Department and let him keep it for a year after he left. And he was cleared without the usual FBI background check and the standard answer from this administration, of course, is "it was an oversight" While at Commerce, Huang got classified CIA reports on China; he sat in on dozens of intelligence briefings. After at least three of those briefings, he called Lippo. The conglomerate is in business with the Chinese government. Keep that in mind - Lippo is in business with the Chinese government and Huang used to be an executive of their joint venture, The Hong Kong Chinese Bank. Huang's friend Charlie Trie, another Clinton pal from Arkansas, also has ties to Beijing. He's the one who helped get the Chinese arms dealer Wang Jun an easy visa and the meeting with President Clinton. Trie also raised \$640,000 from unknown sources for the Clinton's Whitewater legal defense fund.

William Saffire wrote in the *New York Times* on February 13, 1997 in his article "Beware the Princelings." "The 4,000 Princelings, the corrupt capitalists' offspring of China's aging communist rulers, were gratified last Friday when one of their notorious members bought his way into a coffee chat with the President of the United States. Wang Jun's triumph arranged by the Democratic National Committee through a Clinton friend, Charles Trie, was made possible by a lapse of security among money-hungry Clintonites who soon received \$690,000 from the Princelings' sponsors. The FBI suspects Wang, son of Lon March Her, of trying to run 2,000 AK-47 automatic weapons into the hands of street gangs in the U.S. Wang is known to be a middle man in purchases by the Chinese army of missiles from Europe. "The post Tiananmen debate in the U.S. about China policy is outdated," Mr. Saffire writes. "That debate ended when the Asian Connection persuaded Bill Clinton to open the flood gates of China's trade. Beijing's leaders and their Princelings, unrestrained, jailed all dissidents. Although it turned out that human rights crowd was right about the foolishness of rewarding Chinese repression, who cares now? Engagement is a done deal." Mr. Saffire says that "a decade from now will America's smug supporters of China's dominance be reviled as naive fellow travelers

who neglected America's strategic interests while betraying our principles?"

Ambrose Evans Pritchard talked about this. He said, "The Lippo Group, owned by Mochtar Riady, made a serious investment in Arkansas in the career of its up-and-coming governor long before the rest of the world had heard of Little Rock. In 1985 Lippo bailed out the Worthen Bank in Little Rock, shielding the Governor from serious political exposure. In 1992 it bailed out Clinton's bid for the presidency, helping to provide an emergency loan of \$3.5 million after his campaign ran out of money." In the last election President Clinton and the Democratic National Committee received huge, thinly, laundered contributions from foreign sources arranged by the DNC's chief fund raiser, John Huang. Huang worked for the Riadys, the owners of Lippo Hong Kong and Indonesia. And, at the DNC, Huang and the Lippo Group remained in constant contact to get fresh sources of money. The bottom line: The Lippo Group has shown extraordinary interest in getting President Clinton reelected.

A two-month investigation by the cable television network NET alleges that the Chinese government laundered large donations to the Democratic Party by passing the money through the Lippo Group - that's the Indonesian financial conglomerate tied into the powerful network of the Chinese in the Far East. According to the NET report, the Lippo Group has served as a front to assist Beijing in espionage against the United States and to buy influence in Washington. The FBI now has a task force of 25 agents investigating the Lippo Group

### ***Treason***

"After researching the issues, one sees a dangerous thread of lies, deception, illegalities and actions that border on treason, that are becoming a decided threat to the security and future of this nation. **Bill Clinton and his Arkansas cronies are running Washington - and the Nation - the same way they ran Arkansas - like a Central American Banana Republic - in much the same way the Ortegas ran Nicaragua - as their personal empire."**

Let's review some undisputed facts. U.S. counterintelligence had caught the Chinese Embassy plotting to subvert the U.S. political system. They were overheard discussing plans to funnel money to the Democratic Party before the 1996 elections - an absolute no-no in the hierarchy of Washington sins. The President tells us 90% of the money collected by both parties was 'legal.' That expresses the 60's mentality, 90% morality ought to be good enough for anybody.

It's about soliciting and accepting illegal donations from foreign interests - illegally soliciting donations from the White House, accepting money from Chinese arms dealers, taking money from drug dealers and giving them access to the White House and access to the President of the United States. Remember the stealth ceremony where the President set aside Utah land containing \$3 trillion in clean coal, that may have been a payoff for Indonesian campaign contributions? The only other place to get that kind of coal is in Indonesia.

The Lippo group may, in fact, be a front for a much more malevolent force: the new leadership of China. Given the President's closeness to the Lippo Group, let's look at the chronology of certain important events. Mochtar and Steven Riady, Lippo's owners, offered shares of a prize possession, the Hong Kong Chinese Bank. The market did not respond. But in a move that was puzzling to market analysts, China Resources Holding Company purchased 15% of the shares at a discount rate, now read as a good-faith gesture. Shortly thereafter, President Clinton was elected and the Lippo group quickly demonstrated their White House access - a revolving door of private meetings between President Clinton, the Riadys, who are ethnic Chinese, and John Huang. In June of '93, China was awarded Most Favored Nation Status. One month later, China Resources raised their stake in Hong Kong Chinese Bank to 50% - but this time they bought in at 50% over the stock's value, delivering a massive kickback to the Riadys. The question is: who are the Riadys' new partners? Nicholas Eftimiades, author of **Chinese Intelligence Operations**, is currently at the Defense Intelligence Agency, or DIA and says: "China Resources, or China Resources Holding Company actually, is under the Ministry of Foreign Economic Relations and Trade. Again, one of the Chinese Government characteristics of creating an ostensible company. But in fact they are really Chinese Government employees. But they do create these, quote, companies just for easier dealing with the West."

Eftimiades revealed that China Resources has a special characteristic. China Resources was used as a collection vehicle - now remember this is a very large-scale corporation, if you will - but it was also exploited, if you will, by Chinese military intelligence for collection purposes. And in particular, China Resources in Hong Kong had a PLA officer in one of the vice presidential slots. And that position was used for access for scouting foreign technology and commercial intelligence useful to the PLA.

The question to ask yourself: Why did China spend so much money to re-elect Bill Clinton? People don't spend money unless they get something back and they've been in Arkansas for years cultivating a young governor Bill Clinton, with a lot of Chinese money going in down there, so if they're going to spend millions to re-elect Bill Clinton, why? How much have we not uncovered yet?

President Clinton, the First Lady, and the rich and powerful cronies and connections that were forged back in the old days of one-party rule in Arkansas have virtually taken over the American political system. And things are done, not for the benefit of this country, but are payoffs to those same rich and powerful forces that got Bill Clinton where he is today. I think we're headed straight for a Constitutional crisis in this country. This tie-in with China, our avowed enemy, Communist China, I think is a dangerous thing and it borders on treason.

### ***President's Record in Dealing with China***

The year 1997 was critical for US-China relations. Could the Clinton administration be trusted to make the right decision? What you don't know about the

President's record in dealing with China may disturb you. Since taking office in 1993, the Clinton administration has been criticized for what some consider tactical blunders in dealing with the Peoples Republic of China or the PRC. In one example, the late Commerce Secretary Ron Brown approved the sale of two satellite systems to the PRC, which could be used in China's vast military force known as the Peoples Liberation Army or the PLA. That decision came under fire from Pentagon officials. In another instance, the CIA alerted the administration to the fact that several companies that are owned and controlled by the sons and daughters of China's leadership had been illegally copying billions of dollars worth of U.S. commercial goods. In this case, the Clinton administration turned its back on the American business community by choosing not to embarrass the Princeling power structure. Later, however, the well-connected Princelings have upped the influence ante in a weapons coup that threatens America's domestic security. How much can they get away with?

### ***Presidential Protection of China's Arms Deals in U.S.?***

Another Princeling, General He Ping, who is the son-in-law of Deng Xiao Ping, actually was doing a deal with the hope of cornering the arms market - the small arms market in the US, through a company called Poly Technologies." Poly Technologies is a company started by the Chinese government which is actually under the general staff department of the Peoples Liberation Army - actually the equipment department of the Peoples Liberation Army. "He was cautioned from the very first that when it comes to arms it would be very sensitive. He would have to make sure it is legal. And he smiled, he said they are not really concerned about that because, if anything goes wrong, they can fix things up in Washington. They have this channel to Washington."

And fix things up they did. On February 6, 1996, a Princeling named **Wang Jun, son of one of the butchers of Tiananmen Square**, met with then-Commerce Secretary Ron Brown at his office, and then demonstrated his own "special channel" by meeting with President Clinton himself in the White House at a reception reserved for campaign contributors. Just three months later representatives of Wang's company, Poly Technologies, were arrested in the United States by US Customs agents for trying to import a record 2,000 illegal AK-47 automatic rifles. Customs agents had been working undercover for a year and a half on the sting operation that netted Poly Technologies, and according to press accounts, the agents were attempting to lure a high ranking official of the firm into the United States. But that all came to a screeching halt when **representatives of Poly Technologies were tipped off** and Customs was forced to act immediately by arresting the suspects at hand, with the exception of an assailant identified as a Robert Ma - whose real identity is Ma Bo Ping. Mr. Ma is an officer in the Peoples Liberation Army. Sources told American Investigator that he managed to flee the country to avoid capture and prosecution."

### ***Big Money Deals and Campaign Contributions***

Let's talk again about the article written by Mr. Rich Lowry that appeared in the *National Review*. He had been talking about trade missions to China back in 1984 led by

the late Commerce Secretary Ron Brown that netted \$6 billion in new business deals between U. S. Corporations and the Chinese Government. What you have to keep in mind is this is not just Bill Clinton, the Democrat Party, the Republican Party or whatever. It's big business people that are greedy that are willing to sell out the United States in order to make their deals. He said, "the deals included a mammoth \$1 billion power plant deal for a partnership of the New Orleans-based Entergy Corporation and the Indonesian conglomerate, the Lippo Group. AT&T and General Motors also struck some multimillion deals on the trip. Mr. Lowry writes, "A cut of the new funds was destined for the coffers of the Democratic Party. John Huang, the former Lippo Vice-Chairman who was involved in setting the trip up, later touched these same corporations for contributions. AT&T gave \$325,000; the Entergy Corporation gave \$156,500; and General Electric coughed up \$121,250. As Mr. Lowry points out, "there's some concern now whether the biggest potential Democratic contributor in this case wasn't the Chinese Government itself." I thought it was very interesting in one of the statements that Bill Clinton made which is a clear reflection of the 1960's amoral mentality. Responding to the money scandal, he was quoted in *Time Magazine* as saying: "There is a difference between what is legal and what ought to be done."

**"But the accusations cannot be - they must not be - ignored, saying that 'everybody does it' is no excuse for criminality. The scope of the alleged influence peddling in the Clinton White House is apparently without modern precedent."** The allegations are serious. They imply a betrayal of the public's trust that no patriot should warrant. There is an old-fashioned word for its name . . . Treason. That is strong, strong language. Do we have a politician here that just simply said that whatever it takes to win the presidency and stay in power, I'm willing to do it? As he said, "there are some things that are legal and there are some things that ought to be done." This is the mixture of the new ethics and new morality that we're living under. **Are American interests being sold out, not just by this Administration, but also by big business?** What about fellow Christians who are suffering in China. It's very difficult for Americans to understand the persecution that's going on in China. We look at WW II movies and we see things like Schindler's List and we shed a tear. **But we go our way and forget about it because as far as we're concerned, it's never happened to us. We live in America; it's never going to happen to us. [Wrong, persecution in America is coming.]**

Frank Gafney is a well-respected, Washington Director of the Center for Security Policy. Concerning Clinton's activities with regard to the Chinese, including the use of the White House for fund raising in **allowing the Chinese to bring weapons into the U.S., he says the Chinese have been laundering money, stealing our American military technology and giving it to rogue nations.** Mr. Gafney says that it is troubling that the U. S. is neglecting these activities and the hostile statements China is making toward the U. S. He says we need a more prudent trade policy.

There are money laundering operations, efforts to steal or otherwise acquire militarily relevant technology, using in many cases some 700 Chinese military-owned front companies operating in this country. **And if you put a list together with what**

**China is doing with its own technology and that it acquires from us and from the Russians to arm some of the most dangerous countries in the world with weapons of mass destruction and the means by which to deliver them - ballistic missiles, cruise missiles, etc. - you put all this together and a very troubling picture emerges.** One with very, very serious overtones for our future relationship with China and for our national security interests.

### ***China Getting Control of the Panama Canal***

There's another thing that you should be interested in which was reported in *The Washington Times*, March 19, 1997: "A Hong Kong conglomerate with ties to the Chinese Government has gained control of two key Panama Canal ports in a deal U. S. officials say is 'unorthodox' and harmful to American businesses. The Panamanian government last month awarded Hutchison Port Holdings Ltd., an arm of Hutchison Whampoa Ltd., a 25-year lease to operate ports that anchor the Panama Canal on the Atlantic and Pacific oceans. The agreement was made as the canal undergoes a sensitive transition from U. S. to Panamanian control. It blind sided American companies bidding on the ports and has drawn fire from the U. S. Embassy. Unless there is a change in current policy, all U. S. Military forces will withdraw from Panama on December 31, 1999. Now you've got the Chinese going in; you've got the U. S. Military coming out. If we continue to present policy of abandoning the Isthmus of Panama, a vacuum will be created which will be filled by a power hostile to the United States. **The result is that in time of war our ability to rapidly transit vessels between Atlantic and Pacific is placed at risk.** Some day America will pay a colossal price in blood and treasure because of the indifference and the foolishness by politicians of both parties who have failed to do the simple things needed to preserve our bases in Panama and to make sure that we have not only that transit capability, but the very important intelligence monitoring capability that goes with it."

Douglas MacArthur spoke of Formosa, which is another name for the Republic of China on Taiwan, as a giant aircraft carrier in the Pacific. And he was exactly right. From a military standpoint, that island of Taiwan, as long as it is an alliance of the United States of America, is a tremendous asset. It's interesting that Bill Clinton has carried favor with both Taiwan and mainland China. When he was governor of Arkansas, he made several trips to Taiwan. That may help explain why when the Communist Chinese threatened the Republic of China on Taiwan last year, Clinton authorized sending a U. S. aircraft carrier to the edge of the straits of Taiwan. It was at that point that a top Chinese Communist leader threatened to bomb Los Angeles with nuclear weapons. The reason I raise this issue is that our ability to have Taiwan as a bone in the throat of Communist China limits their ability to be a threat to us. As long as they worry about Taiwan launching a counter attack against them if they were to attack us, the likelihood of their going after us is much diminished. But if the day comes when they incorporate Taiwan into mainland power as they now have begun to incorporate Hong Kong, then they have a freer hand to go after the United States. And with the decline of U. S. defense spending, in three or four years no president could prudently make the kind of threat that was made by Clinton when he sent that aircraft carrier to the straits of Taiwan. At the same time

they are neutralizing our ability for self-defense by virtue of their potential takeover of the Isthmus of Panama.

It is tragic, that at a time we are sending our troops abroad to serve as policemen and mercenaries for the New World Order and we're not defending our own front yard. We should focus on defending the United States of America.

### ***China Gets a Deep Water Port in Long Beach, California***

It also coincides with U. S. static over the Navy's leasing of a former Long Beach base to Cosco, an arm of China Ocean Shipping Co., which is operated by the Chinese Communist government. This is very important. The Chinese are to establish a deep water shipping port on our Pacific coast to bring in all those cheap China make goods to our country. Once the containers are brought in they are to be shipped by rail all over the United States. Do you see a problem with that? What if they were to decide to go to war with us and wanted to do a surprise attack? They could load soldiers and weapons into those containers and onto rail cars and have them dispersed throughout the United States in two days time without anyone even knowing about it. What if they entered the ship harbor with disguised freighters armed with missiles? They could hold this entire country hostage. A Red Chinese port on our West Coast is the most dangerous and asinine thing Clinton has ever done. Cosco also won a \$138 million government-loan guarantee to finance ship construction in Alabama. The loans will cover 87.5 percent of the project's cost and the company has 25 years to pay them off. The money trail snakes down through Little Rock.

Take a look at what the Red Chinese have been able to do here. They've established a beach head at Long Beach, CA, through the lobbying efforts of one Bill Clinton acting as a lobbyist in Long Beach. Now you've got the Chinese building and taking over both the Atlantic side and the Pacific side of the Panama Canal. This is the China influence in the Western Hemisphere. **These people are no longer on the other side of the world, they are in this Hemisphere, and indeed in our backyard in California.**

### ***Giving Away Our Secrets to China***

The Soviet Union - Lenin missed it, Joseph Stalin missed it, Kruscshhev missed it - the whole regime missed it when it came to conquering the West. They thought they could conquer the West militarily - they couldn't do that because the Western businessman with a profit motive is smarter than they are. What China is doing is something totally different from what the Soviet Union did. China is saying, first off, we've got to get into the economic stream; we've got to act like capitalists; we're going to whip them economically; we're going to steal all of their secrets - in fact they're going to give them to us. They're going to love us so much that in order to get our money to run our political campaigns and make money for our companies, they're going to give us their best secrets. When all of that's done, then we're going to strike.

Listen to this quote out of the *Washington Times* by Congressman Gerald B. H. Sullivan. He's a Congressman from New York State. "Everywhere we turn, we see China taking active measures to compromise, infiltrate, neutralize, or otherwise undermine American economic and security interests. **We don't know how much of our national security has been compromised by the Clinton Administration for the sake of fund raising.**"

### **Has Clinton Sold Out America?**

Bill Clinton was the person who once led demonstrations outside the U.S. Embassy in London against the Vietnam War and called for total U.S. disarmament. Then he was in the White House to accomplish his goal! He wants to totally disarm the U.S. for world government, so we will not be able to defend ourselves from takeover by international socialism.

Will we ever forget the Oklahoma City bombing in the summer of 1995? We have witnessed terrorism in the bombing of TWA flight 800 and the World Trade Center, and against our troops in Saudi Arabia. We asked, how can this happen in a civilized society? Our hearts went out to weeping families of the injured and dead.

Yet our greatest danger lies ahead. Many countries hostile to the United States have already acquired nuclear, chemical, and biological weapons that can reach us in less than 30 minutes. Intercontinental missiles are now sold on the open market. In the last 10 years, Russia, China, North Korea, Iraq, and Libya have threatened to launch nuclear weapons against us. "Today, 26 nation possess ballistic missiles."<sup>19</sup>

### **America is Defenseless**

Most Americans believe that if a missile were fired at our nation we would shoot it down. Unfortunately, that is NOT the case. **America is defenseless against a ballistic missile attack.** In 1995 President Clinton vetoed a bill that called for deployment of a national ballistic missile defense and continues to refuse to deploy a system that would protect us. The tragic reality is that we cannot stop even one missile loaded with nuclear, chemical, or biological warheads launched at one of our cities. **William Perry, Secretary of Defense said: "We have no capability to shoot down any ballistic missile fired at the United States."** Worse yet, and unknown to most Americans, the government has shut down our national long range radar system that was to give us early warning of such attacks. The \$6 billion antiballistic missile (ABM) system that was supposed to defend the U.S. from the Russian and Chinese missiles has been dismantled.

How vulnerable are we? Consider the following report. "A Russian attack submarine recently stalked three U.S. aircraft carriers close enough to sink one with high-speed cruise missiles during a series of cat-and-mouse operations not seen since the Cold War, The Washington Times has learned. **The Russian Oscar II-class guided-missile**

---

<sup>19</sup> GOP Stakes Missile Defense, *Wall Street Journal*, 8/7/95.

**submarine spent nearly two weeks in September about 100 miles off the Washington state coastline and sailed undetected for days, eluding U.S. surveillance vessels and aircraft, said government officials** familiar with the incident who spoke on the condition of anonymity. "This submarine was built to kill U.S. carriers and Tomahawk missile ships," said one familiar with details of the encounter. "It shows the Russians still consider us a threat."...The Russian Navy considers the submarine to be its most powerful naval platform; the submarine force can target land-based as well as sea-based targets. In turn, Russian submarines can themselves be targeted only by the most modern submarines or anti-submarine systems." ( Russian Sub Stalks 3 U.S. Carriers, *Washington Times*, Front page, 12/7/97). Indeed there are dozens of Russian subs 20 miles offshore on both coasts targeting all major U.S. cities, each one capable of delivering at least 20 missiles with nuclear warheads. They cruise silently into our waters under the cover of large ship freighters. The military used to track them, but we no longer do. This illustrates that the Russians stay in a position to attack America. This country is in great danger of an attack and is poorly defended, making us more vulnerable than anytime in history. The worse crime is not to tell the truth of our vulnerability to the public, and to keep the people in ignorance. We must rebuild our defense systems.

### ***Masters of Deception – Glasnosta***

It should never be forgotten that the Soviets are the chess champions of the world and masters of deceit who have learned to plan 10 to 20 moves or years ahead, to use strategic feints, deception and subterfuge. The present period of glasnost/perestroika is the sixth since 1921, and is designed to get the West to build up and bailout the Soviet Union economically and industrially, and to neutralize Western Europe and dissolve NATO. History shows that after each of these glasnosts the Soviets reverted to form—mass murders, purges, global revolution, conquest of countries, assassinations, etc.

Gorbachev and Yeltsin decided to trade nominal control over the Eastern bloc satellites for the neutralization of Western Europe. The well-drafted script called for the appearance that he had lost control. In fact, the Soviet KGB and military, which are firmly in control of the Soviet Union today, are both stronger than they have ever been. The Script calls for America and Western Europe to be allowed to take over the financial burdens of Eastern Europe. East Germany became reunified; Western Europe is about to become neutral; NATO will collapse; Eastern and Western Europe will become realigned in an economic and eventually a political bloc; America and the West will massively disarm in light of the "diminished Soviet threat" and "end of the Cold War". America will become more isolated economically and politically from a united and neutral Europe; and all of the above will be paid for by America and Western Europe in the biggest economic bailout in world history.

Gorbachev and Yeltsin intend for America, Western Europe, and Japan to take over the financial burden of Eastern Europe, to supply Russia with massive credits, to pour in massive amounts of high technology, and to help rebuild Russia's basket case agricultural and industrial infrastructure. Everything from computers to fiber optics to Pepsi Cola to petrochemical and light bulb factories are now being sold into the Russian

market. Multinational corporations and banking leaders are looking at the billions of dollars in profits they plan to make in joint ventures with Russia, where they see a market of 400 million people just waiting to be exploited. Greedy Western businessmen would sell them the rope with which they would hang us, and would sell their souls, their birthright, and even their freedom for profits.

After this brilliant strategic deception has run its course, the Soviets will have the names of millions of dissidents throughout the Empire, and these will be systematically liquidated in bloody purges a la Stalin, Mao, and Tiananmen Square. Sometime, during or at the end of Glasnost #6, America will be targeted for nuclear blackmail, or outright military attack via the Red Dawn scenario. (See books by Edward Jay Epstein, *Deception*; and by Anatolly Golitsyn, *New Lies for Old*).

### **Soviet Military Superiority**

The Soviets are producing a nuclear submarine every 37 days and they already have the world's largest submarine force. The Soviets now have more tanks and artillery pieces than the combined British, French, and German armies. They are producing 700 combat aircraft per year at twice the U.S. rate. They have a 16 to 1 advantage in short range nuclear missiles over NATO, 30,000 more tanks, and 1.7 million more troops. They have a 4 to 1 naval lead over the U.S. The Soviets have 215 combat-ready divisions vs. 15 for the U.S. Tiny Cuba has a larger standing army than America. The Soviets have also tripled production of their cruise missiles. The overall ratio of Soviet to U.S. warheads is 8 to 1. In practice this means that a decapitating first strike is a serious option for the Soviets, but none at all for the U.S. The cuts in weapons glorified by our media were for image making only. What's more the unverifiable cuts would be in obsolete weapons, leaving the Soviets, based on current production, deploying a newer, more advanced force. President Bush and now President Clinton knew all this. More to the point, they and their Trilateral friends are the very ones who have created this "best enemy money can buy" with tax dollars out of United States citizen's pockets.

Under the START disarmament treaty by President Bush in 1990, America's and Russia's strategic forces were to be cut by 50%. While the Soviets claim to be disarming, they have undergone their most massive arms buildup in history. The Soviets are spending 25% of their GNP on the modernization of Russia's already vastly superior arsenal, while encouraging our disarmament. If America concludes the START treaty and cuts our strategic forces by 50%, and Russia cheats on the treaty, as they have on every treaty we have ever signed with them, it is tantamount to national suicide. We will be nuked or blackmailed into surrender.

### **The Plague in the United States**

Iraqi "cells" composed of 11 persons (10 men, and 1 woman), have infiltrated the U.S., and were waiting for the "go-ahead" from Saddam Hussein to release biological agents on us! One "cell" was caught, but over 100 others exist. The women in these "cells" smuggle biological agents in their private body-cavity and, therefore, go

undetected through airports! They plan to release these biological agents, anthrax, and bubonic plague, on the major U.S. cities all at the same time! These biological agents would be multiplied in simple incubators and would then released by stealing small planes from county airports and "crop dusting" it over all major cities at one time. It was estimated that over 180 million men, women, and children would die a horrible death in just a few days. We have nothing to defend against this kind of attack. To the Iraqi's we are the "great Satan". Killing millions of Americans, even if they lose their own present life, guarantees the Iraqi a higher position in "heaven" in their Islamic beliefs. We mobilized an army of one million men to defeat Saddam Hussein in the Gulf War. Isn't it ironic that he could have wiped out the United States with just 1000 men, possibly students, with these biological agents released. The threat is still out there. Military might does not guarantee victory any more, when an attack can come from within us. **Will the fourth pale horse of Revelation (plagues or disease epidemics) stalk the United States?** All Iraqi's in this country should be rounded up and deported immediately.

### ***Turning our Military Over to the U.N.***

And now the U.N. military is being strengthened by the U.S. turning its personnel and equipment over to them. The U.S. is supplying the military enforcement of the New World Order that will be a Socialist/Communist order that will look like Fascism. President Clinton signed PDD-13 that allowed our military to take orders from a foreign commander. Remember, Michael New was given a dishonorable discharge in January 1996 for refusing to serve under this United Nations command. Now top secret PDD-25 is said to give all our military over to the U.N. as stage three of State Department Publication #7277 says it would. Article 42 of the U.N. Charter claims authority to take such action as may be necessary to maintain peace and security. However the U.N. definition of "peace" is never given. Their definition of peace is world communism. The President has signed PD 25, which gives them dictatorial control in an declared state of emergency. Don't count on the U.N. to do anything the way a Christian based government would do it. **Persecution is coming your way. Are you close enough to God to endure it?** Remember the U.N. was founded by Communist and is headed by a Communist. The U.S. has only one vote, the same as the smallest nation in it. Out of 185 nations, the U.S. pays one quarter of the U.N.'s general budget and 31.7 percent of its \$3.5 billion peace keeping budget. The Clinton administration made very conscious decisions that we would cut back on much of the intelligence gathering that we do around the world. They also made a conscious decision that we would share our intelligence with the United Nations. I think that was very dumb and foolish and is on the edge of treason when you start sharing that information with people at the U.N., many of whom are our enemies. For example look at the Vietnam war. We had to file our military moves with the United Nations, so the communists knew what we would do in advance, anticipated our actions, and took counter measures. That is really why we could not win the Vietnam war. Under the 1992 Open Skies Treaty, that promotes openness by allowing participating countries to gather information about each other's military forces through unarmed observation flights, a Russian air force plane flew from Washington to Ohio to Florida taking photos of American military facilities in August 1997. Again we

**are cooperating to our own destruction.** The United States should get out of the United Nations or stand up in it and demand the power and respect it deserves as a world leader.

### ***U.N. Troops on U.S. Soil – What is Their Real Mission?***

A top-secret military operation was discovered on August 15, 1996, when loyal Americans saw a long military convoy on a remote highway in the DeSoto National Forest in southern Mississippi. Roads had been blocked to parts of the Forest saying they are protecting the habitats of endangered species and were posted as restricted area. Some loyal citizens walked into the forest and took videos and photos of a command center, several camouflaged vehicles, and numerous U.S. military and Russian military personnel. They also took pictures of a radar site, a scud missile on a mobile launcher, a scud missile raised in launch position on its trailer, a battery of scuds, a fenced in razor wire site, Russian T-80 battle tanks, Russian armored personnel carriers, a Russian SA-6 Gainful surface to air missile launcher with its three missiles elevated and in launch position, and a Russian SA-8 Gecko surface to air missile carrier with its four missiles in place. A Pentagon spokesman has denied any military activity in the area.<sup>20</sup>

We are told of eyewitness reports of U.N. vehicles being moved around all over the country. Russian built vehicles have been photographed in U.S. Customs holding facilities in Mississippi. Many had already been painted U.N. white. Other reports tell of activity in North Carolina near the Great Smokey Mountains. The local residents of small towns have seen thousands of military. We know about Fort Polk, Louisiana, and their military training of foreign troops. The military has had mock invasions in urban areas such as Atlanta, Pittsburgh, and Fort Worth.

The Illuminati's agents, Communism, Council of Foreign Relation, Trilateral Commission and Bilderbergers, are delivering our country into the hands of the enemy. If Communism is no longer a threat why do headlines appear in newspapers such as *Missile Threat Real, and Clinton's Ignoring It, and Taiwan is Next, China Asserts?* Yet, Bill Clinton has stated publicly that "not one missile is pointing at America"! How can Clinton lie so blatantly? Unless Clinton is serving his masters' purpose of disarming America and preparing it to be invaded if we will not give in to nuclear blackmail.

### ***Communism is Dead! Don't You Believe It***

**We have been told that we have won the Cold War and that Russia is no longer our enemy.** Don't you believe it. One of the oldest and best communist ploys ever used has been to fake weakness. "To win, we shall need the element of surprise. The western world will have to be put to sleep. So we shall begin by launching the most spectacular peace movement on record. There shall be electrifying overtures and unheard of concessions. **The capitalist countries, stupid and decadent, will rejoice to cooperate to their own destruction.** They will leap at another chance to be friends. As

soon as their guard is down, we shall smash them with our clenched fist.”<sup>21</sup> I believe we are seeing that happen now. Our guard is down. It is only a short matter of time before they strike.

### ***Will the U.S. Fall Like a Ripe Grapefruit?***

Lenin, first dictator of Russia, revealed Russia’s plan for world domination: “First we will take Eastern Europe, then the masses of Asia [accomplished]. Then we will encircle the United States, which will be the last bastion of capitalism. We shall not have to attack [hopefully], it will fall like a ripe grapefruit into our hands.” Will Lenin’s prophecy come true?

### ***Threats of World War III***

Over the past few years, we have committed more than \$20 billion in U.S. aid to help Russia establish a democratic free-market system like ours. Under the surface lies a completely different story. “Since that time and despite the breakdown of the Soviet Union, Russia has either threatened, supported, or resorted to aggression inside and outside her borders. Not only are they responsible for the genocide of the people of Chechnya, who have sought their independence since 1995, but they have also supported Serbian atrocities in Bosnia. When NATO launched air strikes in retaliation for yet another Serbian slaughter in Sarajevo, Boris Yeltsin threatened the risk of World War III.”<sup>22</sup> The same was true when the U.S. planned to enter Iraq when Saddam Hussein didn’t comply with U.N. inspections in December 1997. Russia told us in no uncertain terms that if we started air raids in Iraq we would be opening World War III and we backed off.

**Many Russian hard-liner leaders would not hesitate to launch a nuclear strike against our nation.** One such hard-liner, Vladimir Zhirinovsky, has warned: “What price Paris? How about London? Washington? Los Angeles? How much are you willing to pay, so I don’t wipe them from the face of the Earth with SS-18s? You doubt me? Want to take a chance? Let’s get started.”<sup>23</sup>

### ***Russia: Politics of Deception***

We continue to pour billion of dollars into Russia to supposedly help them demilitarize and rebuild their economy. “Instead, Russia is using the money to dismantle obsolete material they wanted to scrap anyway and replace with high-tech weapons of

mass destruction.”<sup>24</sup> **Russia has signed many arms control and arms reduction treaties with the United States, but it has also violated every one of them, and their military build-up continues.** Russian General Sergeyev told journalists that while certain ICBM’s would be scrapped, “the combat readiness of strategic missiles will not decline in any way. The obsolete systems will be replaced with up-to-date ones.”<sup>25</sup>

According to our Secretary of Defense, William Perry, Russia still possesses over 25,000 nuclear warheads, whereas America, in compliance with START 1, is now down to 8,000. Russia continues to expand its military spending. As Russia spends your money to prepare for war, the Clinton Administration is dismissive about their flagrant arms-control violations. They spent \$9 billion on new submarine construction in 1995.

### ***Peace and Safety, Then Sudden Destruction***

Very few Americans will be willing to believe the above analysis. The peace propaganda is enormous and overwhelming. Today we hear our leaders telling us that “there will be peace in our day,” but the Bible warns to **beware when men cry “peace, peace, and there is no peace.”** And I Thess. 5:3 says: **“For when they say peace and safety; then sudden destruction cometh upon them, as travail upon a woman with child, and they shall not escape.”**

### ***How They Might Take Control***

The ABC mini-series *Amerika* that played in February 1987 gave us great insight into the Illuminati’s time table. When you combine that mini-series with the movie *Red Dawn*, you can begin to see how the Illuminati could control the country. Travelers into Mexico have reported an estimated 2 million Russian troops. What did the movie *Red Dawn* reveal? They would come through the soft underbelly of the United States / Mexico border. Now a new movie has come out describing a nationwide blackout. It is named *The Trigger Effect*.

The *USA Today*, Friday, August 23, 1996, had an article entitled “Western Outages Expose Power System’s Weak Links.” They mentioned a July 2 outage that blacked out 14 states and part of Canada. Following that blackout was another on August 10 that affected 6 million customers. How could there be power failures with **no plausible** explanation?

Three separate people have stated the Power Company they work for called all employees into a conference room with the announcement there would be a three day blackout sometime in 1996. They were instructed not to come to work when the blackout came. They were given a device so they could be contacted as to when to return to work. When they returned to work, they **must wear the special vest** given them that allows

them to safely pass through the military blockades.

These blackouts left people with no electricity at home, businesses, gasoline pumps, etc. You can imagine a prolonged blackout would melt and ruin all freezer foods at home and the grocery store. Rioting would inevitably break out with looting of grocery stores for food.

Mary Mundt, wife of former South Dakota Senator Mundt, wrote a letter in the 1960's published in 1965 by the *Tempe Daily News*, Tempe, Arizona. Here is that letter word or word:

“If I push this button, I can turn off all the lights in San Bernardino; and if I push this one, I can turn off the water in Los Angeles’. It was the operator in one of the control rooms at Hoover Dam speaking. ‘What would happen if the wrong person should get in here some time and start pushing buttons?’ someone asked. The operator shook his head. ‘The wrong person pushing buttons in here could play havoc with the entire West Coast,’ he replied.”

### ***Taken from Within***

“My thoughts went back to a dimly lighted, musty room in Denver in 1934. My husband and I had infiltrated a meeting of the Communist Party which was presided over by a professor from the University of Colorado. He was presenting a Communist plan for seizing control of the government of the United States. Several times during the evening, he repeated the phrase: **‘An invasion of this country may not be necessary. If we play our cards right, it can be taken from within.’**”

“On the wall was a large map of the United States, but it looked strange – unfamiliar. All the boundary lines of the states had been erased, and the country was divided into sections controlled by river authorities similar to the Tennessee Valley Authority (TVA).”

“The professor continued his lesson: ‘We can never hope to take over this country if we have 48 **strong state governments** to oppose. **We must get the states to depend more and more of the federal government for their very existence.**’ He turned to the map: ‘Here we have a picture of this country controlled by nine river authorities – all of which are dominated by the central government. The TVA is now a reality, and I’m happy to tell you that **we have some of our party members planted there.** We must have more Valley Authorities. There must be an MVA and a CVA and so on **until the nation’s light and power is controlled from a central force.** We are not interested in cheaper power for the people. **What we want is to get our members planted in vital spots where at a given signal by merely pushing a button or pulling a lever, they can plunge the country into darkness and disaster.**’”<sup>26</sup>

## **Dangerous Executive Orders**

President Bill Clinton wrote an Executive Order #13010 and signed it July 15<sup>th</sup> 1996. An Executive Order is a dangerous way for laws to be created. Why? One man can write a law. If Congress does not debate it within 30 days, it becomes automatic law of the land. This Executive Order #13010 would turn the country over to the Federal Emergency Management Agency (FEMA) under martial law in case of terrorist activity that disrupted our power plants that produce electricity for the nation. Isn't it interesting that the blackouts mentioned above happen just over 30 days after this Executive Order. Was it planned? Was it a test run, getting ready for the real thing? There is coming a major blackout. While all communications are out, they will probably round up as many people on their *Red List* as possible.

Former President John F. Kennedy signed Executive Orders and authorized the State Department Publication #7277 that turns this nation over to a United Nations dictatorship to become law. **Every president since that time has reinforced these Executive Orders and updated Publication #7277 to turn all of our military over to the United Nations, so it alone will have armaments to enforce World Government.** Executive Orders are in place so that all transportation, housing, means of production of food, manufacturing, schools, communication, and financial institutions will be controlled by the government. **All it will take is a crisis, real or contrived, to trigger the implementation of the Executive Orders and martial law. Then we will have a dictatorship.** Will it be an attack by Russia or China? Will it be a plague similar to the Covid-19 virus of 2020 that shut down the economies of the world and placed more power in the hands of governments to control our lives?

If our power grid goes down will our defense systems function, will air traffic controllers function, will our financial systems collapse? Will there be a nuclear power plant melt down, or will a nuclear war head missile automatically launch? Those are just a few of the possible problems. But perhaps the greatest uncertainty is how rank-and-file Americans will react should power grids go down, no water, and no gasoline, delivery of food shuts down, stores close, telephone lines go dead communication satellites blink out, the stock market falls silent, no ATM's or money available. By the time the Titanic saw the iceberg approaching there was no way to avoid it, all they could do was watch the disaster occur. We see the day approaching but there is no way to avoid the coming catastrophe! The only question is how bad will it be?

## ***The Ten Horns of Revelation***

There is a spiritual power that is in rebellion against our Creator that is giving rise to this end time beast system and is the source of his power – Satan the Devil. We know from Revelation that this will be a world government that uses military power to enforce its rule. Will this be some form of government such as the United Nations? **The revised charter of the United Nations has divided the world into ten global regions.** Is it coincidental that Revelation speaks of the ten horns, which represent 10 kingdoms with 10 kings, ruling the world in the final days?

## ***Are Militias a Threat?***

The militia movements have been painted by the U.S. news media as anti-government with terrorist type activities. This is simply not true. Most militia movements are based on the original U.S. Constitution. They believe in the right to bear arms and in the right of the people to change or abolish their present form of government when it no longer derives its powers from the consent of the governed, just as our Fore Fathers did at the Declaration of Independence. The militias do not seek to destroy over government, but only to restore the government back to the people and under the Constitution the way our founding fathers intended it to be. These militias exist because these people know that the present U.S. government has overstepped its Constitutional boundaries and that such actions will eventually result in complete loss of freedom and dictatorial powers in the near future. The militias are of and for the protection of the common people. Your U.S. Constitution guarantees us these rights.

If as we have said the militias are the good guys, why then are some militia movements caught doing illegal things? In most cases it has been because our own government has placed a government agent or infiltrator within the group to promote such illegal activities and planting false evidence. What would be the purpose of the government doing such things? That is simple. They would be eliminating the last and only line of defense the people would have to prevent a total dictatorial rule. By infiltrating and instigating or doing these illegal activities, our government is painting these militias as crazies, and as the enemy of freedom, which they are not. In so doing, our government has passed stricter gun control laws and other legislation to further limit your freedoms until finally, one day, we will wake up and our freedom will be gone.

If they ever pass total gun control in this country we are doomed. History has shown that whenever a country banned all guns from the population it wasn't long thereafter that dictators arose and enslaved the people and massacred all the Christians.

## ***Is the Government Out of Control?***

Is our government out of control? Do you remember the senseless FBI sniper killing of Mrs. Randy Weaver, as she stood holding a baby in her arms, at Ruby Ridge Idaho? Do you remember the Waco Church firestorm at Mount Carmel where over a hundred innocent people died at the hands of FBI and BATF government agents? It was a place where, because of media lies, few tears were shed for those without sin, crime, or blemish, who were burned beyond recognition.

## ***Ruby Ridge***

This is what started it all. Some people had been following our government's progress to socialize and communize America. This incident caused people to sit up and take notice that our own government did as it wished against the people.

“A family man in Ruby Ridge, Idaho had been asked by government agents to infiltrate the Aryan Nation group. He later refused, so the government agents framed him on a trumped up charge. He was sent word to appear in court. He would not come down off the mountain. A long time elapsed and U.S. Marshals went up and laid in wait for him. Their dog discovered them with the results of the 13 year old son being shot to death by an agent. An FBI sniper with a high powered scope wanted to “kill any adult.” This was contrary to FBI rules of engagement. The agent shot Vicki Weaver’s head half off. Later in court, Randy Weaver and his daughters were awarded \$3.1 million in wrongful deaths by the government.”<sup>27</sup> This case proved that the U.S. Government was acting in illegal ways against its own citizens. An FBI official actually plead guilty of destroying Ruby Ridge reports that could have prevented all the deaths.<sup>28</sup> After this incident, the people started forming “civilian militias” according to the Constitution to protect themselves from the government if it became a tyranny.

### ***That Doesn’t Concern Me***

Before you say Mr. Weaver was some weirdo, and this doesn’t affect me as a Christian, let us look at the next incident. The U.S. news media is making Christians look crazy or unbalanced. Just look at the situation of the Branch Davidians at Waco, Texas, and remember our governments massacre of some 86 innocent women and children. Yes, the Branch Davidians were an off-the-path Christian organization, but still Christian nevertheless. I can remember some fellow Christians saying, “They got what they deserved.” What are you going to say when this same government comes after you next, fellow Christian? To a godless communist or socialist, your Christian beliefs look just as weird.

### ***Mount Carmel, Waco***

Timeline: April 19, 1993. The BATF went to a Waco, Texas gun shop to investigate the purchases of guns by David Koresh. The owner of the shop called David Koresh to inform him of their presence. **Koresh invited the BATF out to look over the church grounds. They refused!** They had more important things to do – kill 83-86 of them along with four of their own agents. The BATF planned their strategy for a dynamic entry. **They did not have a search warrant** with them. They pulled up in front of the main building in two cattle trucks, jumped out, and started firing at David Koresh who had come to the door to meet and greet them. Janet Reno claimed she was concerned for the children in the compound. Our government used Russian mind control techniques to pry them out. The FBI cut off the water and electricity to destroy living conditions and threatened the lives of innocent children. The government had also fired rounds into the building by a helicopter from above the roof. British agents flying over said the roof of the building looked like a starfield. Thus the building was evidence against the government, proving that they had started the confrontation, and it had to be

destroyed and everyone in it. **The government finally used CS gas that was banned for use in war by 133 nations by treaty.** Janet Reno and Bill Clinton authorized its use. This gas mixture used in a closed building was flammable. Immediately the whole building was engulfed in flames. They made sure no one escaped, all exits were blocked. Those trying to escape were shot and pushed back by bulldozers into the flames. Then there was a small explosion and a ball of flames shot into the air. The government claimed that a butane tank had exploded but that was not true. The butane tank was latter recovered, it was empty and did not explode. Had the government planted a small suitcase size nuclear or other explosive device to totally destroy all evidence at the sight?

Those who came out after the initial raid were later tried in court. Why, when they were the ones attacked by their own government? **The jury found them not guilty, but the federal judge quickly overturned the verdict and declared them guilty.** One of the front doors that was to be used as evidence against the government disappeared. The government held the door and just conveniently lost it. It would have proven who fired first. Of the 86 people who burned to death, 17 were children under the age of ten. “President Clinton later gave a speech from the Rose Garden in which he lied 13 times concerning Waco.”<sup>29</sup>

Because this was a government attack upon private citizens and endorsed by the President and Attorney General Reno, civilian militias exploded onto the scene. Now, not only was their cry “Remember the Alamo,” and “Remember Ruby Ridge” but now it became “Remember Waco!”

### ***The Oklahoma City Bombing***

The assistant Oklahoma City fire chief, John Hanson said they found two undetonated bombs in the buildings as well as one rocket launcher in the building. Why was it that BATF agents got a page on their beeper the day before and were told not to come to work the next day?

CNN reported on June 7, 1995 that the BATF had conducted a test explosion on a van similar to the Ryder truck used, seven months before the Oklahoma bombing. Was this a dry run of the explosion in Oklahoma City?

The Oklahoma City bombing was possibly conducted by elements within the government itself. “Before the bombing, anti-government public opinion and militias were sweeping the country. Growing daily was a tidal wave of resentment against the corrupt little men in high places. In this view, the Oklahoma bombing is a federal dam against such public opinion — a dam of dead bodies designed to hold back the flood of opposition, to redirect public opinion away from Washington and against those who oppose the government. Is this possible? Is it really likely that the government would do such a thing? Let history answer these questions, for only by knowing what has been

---

<sup>29</sup> Smith, David J., *Newswatch Magazine*, January/February 1997, p.42.

done by such men in the past can we judge present events.”<sup>30</sup>

### ***A History of Government Deception***

The sinking of the battleship Maine in Havana harbor, with the loss of 260 men, was blamed on a Spanish torpedo, and led to a declaration of war against Spain. “Years later the ship was uncovered from the mud of the harbor **revealing that the explosion has gone off inside the ship** in the forward ammo magazine.”<sup>33</sup>

The U.S. entered WW1 after the Lusitania was sunk by a German U-boat. Americans were told by the media that the vessel was an “innocent passenger ship” carrying tourist to Europe. Some 55 years later, the manifest of the Lusitania was finally made public and revealed that it was a registered warship in England’s Navy. Under international law the ship was fair game. “**The federal government lied to the American people** and said it was only an ocean liner. The News media used this incident to whip up public sentiment for America’s entry into the war in Europe. One hundred and sixteen thousand, five hundred and seventeen American soldiers died in World War I – a senseless waste of lives...by sinister forces within the government who favored war.”<sup>33</sup>

The bombing of Pearl Harbor on December 7<sup>th</sup>, 1941 produced an instant declaration of war on Japan and Germany in 1941 and is truly a day of infamy. “But no more for the Japanese than for President Roosevelt and others in his administration who knew the “Japs” were on their way to bomb Pearl Harbor. Their murderous failure to warn the young men on the ships was treason. Two thousand, four hundred and three sailors and army soldiers died in a hail storm of bombs dropped from Japanese planes.”<sup>33</sup> The government has classified as top secret the documents dealing with the months preceding the bombing and immediately afterward, in a vain attempt to hide its complicity in the bombing at Pearl Harbor. Classified documents dealing with the Roosevelt conspiracy to withhold information obtained through the breaking of secret Japanese codes are not to be released until the next century. “Admiral Kimmel, the commander at Pearl Harbor that fateful day, latter called Roosevelt “a dammed traitor,” and so he most certainly was.”<sup>33</sup>

A torpedo attack upon a U.S. ship in “international waters” led to the war in Vietnam. “The Tonkin Gulf resolution was passed immediately after Lyndon Johnson and others in the federal government deceived the American people into believing that a U.S. destroyer was attacked without provocation by the North Vietnamese Navy. It was revealed ten years later that no such attack had occurred. This deception by the President of the United States led to the deaths of 57,800 men in Vietnam.”<sup>33</sup>

The bullet that killed President John F. Kennedy “led to the passage of the 1968 gun control act, even though elements in government had performed the assassination.”<sup>33</sup>

---

<sup>30</sup> Smith, David J., “The Oklahoma City Bombing-Its Significance.” *Newswatch Magazine*, September/October 1995, p.17.

Finally, newspaper accounts of the arrests of Egyptians accused of blowing up the World Trade Center reveal that the FBI had advance notice of the bombing. Worse than that, Emad Ail Salem, a former Egyptian army officer and an informant for the FBI, infiltrated the anti-Israeli group, and built the bomb upon instructions from the FBI. Salem did as he was told but secretly taped his FBI handlers in their meetings. Transcripts of these recordings were published in the *New York Times* in October 1993. “Properly placed, the bomb would have killed a hundred thousand rather than the six people it did kill. According to court documents filed in New York, the FBI had advance knowledge of the bombing. But the decision was made on orders from the highest levels within the government to allow it to occur. Why? Why did the government need a bombing with great loss of life? Is the Comprehensive Terrorism Prevention Act of 1995 so important to their police state plans that they had to try a second time? Was Oklahoma City a successful try for the government?”<sup>31</sup>

### **What Can We Learn From History?**

The Clinton Administration used the Oklahoma City bombing as an excuse to push the stalled anti-terrorist police-state legislation through Congress. The existence of government engineered terror might seem absurd. An examination of proven history shows that such actions are not that unusual.

“Those who know and study history can reasonably assume the government was behind the Oklahoma bombing. Clearly the disaster there served the interests and purposes of sinister forces within government who want to pull the rope tighter around the neck of all of us. Those who wish to foist on the American people a new world order, plainly care nothing for the lives of Americans, whether they are presidents, women with babies, small boys with dogs, or children at Waco or Oklahoma City.”<sup>34</sup>

Few of us can remember that on February 27, 1933, Adolf Hitler, Germany’s **constitutionally elected** leader, secretly ordered the firebombing of Berlin’s Reichstag – a federal building roughly equivalent to our U.S. Capital. The public outcry inevitably resulted in the dictatorial empowerment of their government. The Gestapo was created, and hugely popular leader Hitler, assumed virtually complete, totalitarian authority. Some 50 million died in the flames of World War 2 and in concentration camps. It all started with the covert torching of a single federal building! Although the federal powers created by the Comprehensive Terrorism Prevention Act fall far short of those granted to Hitler’s government, they do manifest the same tendency toward radically centralized police authority and will set the stage for even more oppressive legislation.

**Those who forget the past are doomed to repeat it.** “How disgustingly convenient, how cruelly perfect, how devilishly advantageous to the long-cherished

agenda of Bill Clinton and his New World Order supervisors was this monstrous fire-bombing and massacre in Oklahoma City.”<sup>32</sup> They cynically used this tragedy to demand special, dictatorial police powers.

### ***Chipping Away at Freedom***

After the Oklahoma City bombing both the government and the media agreed that certain designated enemies of the state must be stopped. Federal law enforcement agencies must be given the maximum authority to shut the mouths of dissidents. Congress seemed determined to give the federal authorities dictatorial tools to end what the media describes a “the threat to public security posed by dangerous, anti-government factions.” **Among the extremist groups identified by the media and the government as threats to national security are the following: prolifers, Christian fundamentalist, conspiracy theorists, farmers and ranchers, internet and fax users, gun owners, militia members, conservative talk show hosts, tax protesters, constitutionalists, tenth amendment advocates, patriots, and right wing extremists. My friends, that includes you and me, and I am certainly no terrorist or extremist.** “Professor Angelo Codevilla of Boston University has written that the Terrorism Prevention Act “portends trouble” for American liberty, as “the President’s rhetoric has made it perfectly clear who, in his view, the country’s potential terrorists are, and hence who the targets of the government’s attention will be.”<sup>33</sup> Why, just last week (April 20, 1998), some prolifers were convicted under expanded provisions of this act for picketing an abortion clinic. **Is a persecution of Christians going to happen in the United States? Yes it will. As we have shown you, the signs are all there and even the legislation to allow it is in place.**

### ***Taking Back Our Country!***

**Are you just going to stand back and let the agents of the United Nations, New Agers, Communists, and Illuminati, all agents of Satan, take away our God founded and God blessed country? Wake up, fellow Christians, time is short and they already have the advantage. Stand up for Jesus! Onward Christian Soldiers! You've got to do more than just be a believer, you have got to live the Christian Life! Repent, seek God and pray for victory. Put on the full armor of God, and let's get in the battle.**

Ruling America is a deadly black viral-like plaque of murderers, liars, tyrants, and would be police-state functionaries who have infected government institutions and the establishment news media to the point that both have become deadly to the people. A government of deceit and deception has been spawned and taken over control. American citizens have formed grass roots action groups to recover it. But directing one’s anger

toward these state supported terrorist organizations (FBI, BATF, CIA) is not efficient nor conducive to correcting the problem. After all, they have the firepower and the “law” on their side. However, this police state doesn’t operate in a vacuum. They are directed by political leaders that are elected. **We still have the power to take back America so long as free elections are held. We must “take out” two-thirds of the senate, along with about 250 house members, in an election to contain and to begin to reverse this black plaque upon America.**

We will have to find good, honest, Christian men and women to run for office. These people cannot be politicians, because they are already “infected”. These candidates will have to know and understand the source of the problem and have a plan to eliminate it. To be effective, it will have to be done all at once in one election. Between now and the next national election we must arm ourselves with a voter registration slip and use it to take out the seats of the “great whores of the beast” who are now proposing to rule us all with an Orwellian iron fist, beating us into subjection to the new world government. As Martin Luther King said, **“I have a dream.” Will you help me fulfill it? Get on your knees and pray before Almighty God, confess your sins brother, and pray for this nation. With God’s help, and only with God’s help, can it be done!**

### ***Persecution of Christians***

Anyone who has been aware of world conditions at all should realize that Communism kills. It was created by the Illuminati, worshippers of Satan the Devil. No wonder they begin to kill without compassion, human beings of every nation that will not come under their control.

**The Red Horse of the Apocalypse of Revelation 6 serves two purposes: 1. Take peace from the earth; 2. Kill mankind.** This is exactly what International Communism has done since its inception. But even more alarming is the greatest goal of the Illuminati - **totally blot out the name of Jesus from the face of the earth!** Every Communist or Illuminati controlled government eventually passes laws that deny private Christianity. You must belong to the state sanctioned church or become an outlaw. Christians are being killed by the thousands across Africa. Rwanda saw mass graves where one hundred thousand people were buried. Most of these people were professing Christians. The same treatment is beginning all over the continent - even South Africa, which was settled by Christians from England. All Asiatic countries ruled by Communism are imposing automatic minimum three year prison terms if found to be a secret Christian. Some have been sentenced to seven years to finally be released after 21 years.

This has been a century of unmatched Christian martyrdom. It began with the mass murder of Christians in Armenia, and is ending with the mass murder of Christians in Sudan. The Chinese Christians say that 1996 was the worst year for persecution for them since the end of the Mao period in 1976. Many underground Chinese Christians suffer intimidation, fines, beatings, torture, long imprisonment, and execution at the hand of their communist persecutors. But the more the Christian Church is persecuted in

China the faster it grows. It is a measure of the moral and spiritual free-fall of the United States that our political and business leaders will do business with China, the most evil, wicked, ruthless, murderous government in world history, a regime that makes Hitler and his Third Reich look like choir boys, all for the sake of financially enriching themselves. In 1995, China sold \$46.5 billion in goods to the U.S. The next time you are tempted to buy an item made in China, remember the persecuted Christians in China and just say no! We cannot be party to a the wicked regime in China that is crushing human rights and freedom on a scale unprecedented in human history, and will threaten our own national security.

**Many religious organizations in America and Britain continue to preach "the rapture theory" in spite of all the physical evidence to the contrary. Not only that, there is not one scripture that supports a rapture until the 7th and last trump which is immediately after the tribulation of those days (Matt. 24:29-31).** When the original disciples of Jesus asked him for what shall be the sign of thy coming, and of the end of the world, He made this startling statement: **"Then shall they deliver you up to be afflicted, and shall kill you: and ye shall be hated of all nations for my name's sake" (Matt. 24:9 KJV).** **Jesus is here talking about Christians in the last days being persecuted.** Richard Wurmbrand, a Rumanian pastor and a leader in the underground Christian church, was imprisoned and tortured by the Communists for 14 years, now heads a Christian ministry call Voice of the Martyrs and believes that similar persecution against Christians will break out in America in the not too distant future. He has written two excellent books: *Tortured for Christ* and *Preparing for the Underground Church*.

About 1000 Christians a day are being martyred somewhere around the world at this writing. As the political left orchestrates the strategy of undermining the culture, values, and morality of America, the primary opposition to their plans to debauch, socialize and globalize America are Christian conservatives and traditionalists. Hence, they must be and indeed are being trashed, vilified, isolated, and marginalized; and their practices, beliefs, organizations, and publications legally banned and criminalized. The U.N. Convention of the Rights of the Child, already ratified by 187 nations at this writing, would abolish virtually all parental rights including spanking; what you can and cannot teach your child; who your child can associate with; what materials your child can listen to, view, or read, etc. Virtually all Biblical principles of child rearing would be rendered illegal when this treaty, which is strongly supported by the Clintons, is ratified in the U. S. America is well into the last stages before the actual onset of persecution and could be in high gear over the next 5 to 10 years.

### ***God's Warning to the People of America***

America, America, awake out of your sleep. For I will shake you. I will shake you violently as you have never been shaken before. You have flaunted yourselves above your brothers, above your neighbors, people against people, kingdom against kingdom, and Christian against Christian, in your ungodly attempt to self-glorify yourselves. Both in the church and throughout America your leaders, religiously, politically, and economically, are vain, corrupt, and amoral. They are a generation of

heathen, those that appear to many as my elect, my chosen. Yet I have not accepted them because I can see their heart. They are imitations of the genuine, a pearl in the rough. You are fast loosing the salt; the purity that has held you together, that has made you the greatest of all nations. **But I will bring you down like the wind brings down the tree. I will bring you down. And you will not escape my wrath for it is an expression of my love, my deep love, that will do all it can to get your attention, before my eternal wrath will fall**, to remove all those who do not and will not love thy neighbor.<sup>37</sup>

Some say, many say, “Oh we will escape. It will not happen to us. For we are they elect. We are God’s chosen.” But I say you have blinded yourselves with your own vanity. My elect are not the people, the church in America, but my elect are the people of the world that are called by my name, follow the commandments of God, and do my will. They are not this people with a false tongue of divination from the heart. For you are a thankless, godless, and amoral generation that has been raised by the philosophies of the heathen. I will challenge your philosophies till you hate me and my people. My people will not escape your wrath. For only through the world’s wrath will they open their eyes, see clearly what I have been saying, and be prepared to meet me.<sup>37</sup>

I am coming quickly for a people, a church without spot or wrinkle. I am coming for a blood washed, blood soaked people who are really called Christian, not some hypocritical, self-righteous, self-taught, self-educated fool who propitiates his own dogma today. I will tear down the haughty; the mighty religious leader in my kingdom, in my church, who has deceived my people with your ever babbling rhetoric that has filled the pulpits across America. Instead of my church being one, you have become institutionalized where my true servants are not even welcomed because you are protecting your own man-made philosophies and your own self-interests. You think the people are yours, but I tell you they are mine. Your man made denominational institutions will fail. I am shaking and calling the very elect to follow me. Awake, awake, for the King of Glory is about to appear. Only the true elect, the glorified elect, will live in that New Jerusalem that I am preparing.<sup>34</sup>

**We can already see God shaking this country. He is doing it now through weather disasters. Almost weekly, one right after another, there is a killer tornado, flash flood, hail, windstorm, severe snowstorm, or freezing weather resulting in loss of life, property, and devastating crops and livestock.** Listen as your weather man tells you things like: “this was the worst storm of the century,” “this was the strongest tornado ever recorded, a grade 5,” “we have had more tornadoes this year than in the past 14 years” and “worst blizzard of the decade.” Still most people are not listening and not responding to God because it hasn’t happened to them yet. When you lose all your earthly possessions in one of these disasters, it is a humbling experience. Soon there will be large earthquakes in California and along the Madrid Fault through the center of the United States. Yes, God will also literally shake this country. **This country must repent and turn back to God, both individually and nationally. You must repent of**

**your sins and start living a life pleasing to God. Only this whole country turning to God in repentance, will avert the coming persecution of Christians and the destruction and captivity of the United States.**
